

MESSAGE

Leopoldo Fabriquier Jr.
1st Vice-President of PAMET USA

It is my distinct honor to convey my warmest greetings and felicitations to PAMET USA in general and PAMET NEVADA in particular.

In the span of ten years, PAMET NEVADA remarkably achieved its goals with flying colors. It painted the images of concern to its members, reaching out to charity, dedication to uplift the practice of our Med Tech profession, and enthusiasm to lead and make a difference. Sponsoring review classes with CEU, exemplify concern. Donations of money and in kind, manifest caring. Catering of genuine services to the patients and clients, defined upliftment. Successfully competing on events sponsored by the mother chapter, for example, the Fun Night and Booth Exhibit, defied doubt in terms of our competitiveness, and leadership.

In the absence of our national president Ester Madamba, I presided the Executive Board Meeting held in Los Angeles last month of August. Moreover, I administered the oath-of-office of PAMET Northern California, and PAMET Nevada new sets of officers.

Finally, let's continue to work hard, reach out to charity, and make a difference. Please be reminded, that our destiny depends on our hands. God bless and more power in PAMET USA. Thank you and congratulations to all.
