

**MESSAGE FROM THE PRESIDENT-ELECT
PHILIPPINE ASSOCIATION OF MEDICAL TECHNOLOGISTS
PAMET-NEVADA, INC.**

Congratulations to PAMET-NV for reaching a decade of service. Though we've gone this far and have accomplished so much, we still have a lot of room for learning, lending a hand and growing towards another milestone. I am especially proud to be a part of this endearing service to the community, to our profession, and to all the people who need our service the most. I am very eager and enthused to serve as the next President for the year 2012 and 2013.

When my name was announced as the President-Elect during our anniversary celebration, I heard the audience muse, "It's about time!" Indeed! I have dedicated many hours within the past decade to help our association become what it is today. I look forward to doing much more as we go on to the next 10 years. I do have a well laid out plan.

"A great leader's courage to fulfill his vision comes from passion, not position."

-John Maxwell
